SKILLS

Languages	JavaScript, TypeScript, Python, Java, C#
Frontend	React, Next.js, Laravel, Tailwind CSS
Databases	Oracle, MySQL, MongoDB, Firebase, Microsoft SQL
Tools	Git, Tableau, Figma, Axure, Microsoft Apps, Canva

PROJECTS

LimbahKu – *React 18, Tailwind CSS, Vite, shadcn/ui, Firebase, Cloudinary.* [Website](#)

LimbahKu is a waste management platform that helps users repurpose valuable household waste by connecting them with verified waste buyers. From stacks of old paper to broken electronics and used plastic, our app ensures that your waste doesn't go to waste.

SIS OTOMAIL – *React, TypeScript, Tailwind CSS, Go, Cloudflare, PostgreSQL, MySQL, Redis.* [Website](#)

SIS OTOMAIL is a web-based platform (automailer) that streamlines bulk email sending with personalized content and attachments. Designed for internal use by the School of Information Systems staff, including lab assistants, lecturers, and administrators, it provides a reliable solution after previous attempts failed.

Anggar.in – *Figma, React.js, Vite, Firebase, Firestore.* [Website](#)

Anggar.in is a blockchain-based web platform for transparent budget planning and fund tracking, built to combat corruption and financial mismanagement across public, corporate, and student sectors in Indonesia.
